## ENHANCE YOUR SIMULATION TRAINING WITH REALiTi360 YOUR MOBILE SIM-CENTER IN A BAG

REALiTi 360 elevates medical simulation training by providing highly realistic patient monitoring, defibrillation, and ventilation displays that closely replicate real clinical user interfaces. Designed to increase immersion and learner confidence, it helps create a more authentic training experience where participants can practice assessment, decision-making, and treatment in a safe but highly lifelike environment.

Built for maximum flexibility, REALiTi 360 can cover every training environment – from fast-paced emergency and pre-hospital scenarios to structured hospital-based training settings. It can be used instantly “on the fly” or delivered through pre-programmed scenarios, and instructors can easily create, customize, and expand their own scenario library. In addition, free scenarios are available through the REALiTi 360 Community platform, making it easy to keep training fresh and continuously evolving.

## FIND THE REALITI360 KIT TO SUPPORT YOUR SPECIFIC TRAINING REQUIREMENTS:

	REALITi Go	REALITi Plus	REALITi Pro
Item Number	1026690	1026692	1026693
Universal (Generic) Screens – Patient Monitors, Defibrillators, AEDs and Ventilators	6	6	6
Number of Premium screens included (Zoll, Philips, Schiller, etc.)	–	1	5
Optional Premium Screens to choose from	25+	25+	25+
Patient Monitor Tablet (included)	iPad Air 13”	iPad Air 13”	iPad Air 13”
Controller Tablet (included)	iPad 11”	iPad 11”	iPad 11”
1 integrated Wi-Fi	✓	✓	✓
1 USB Powerbank	✓	✓	✓
1 Simulation bag and Accessory set*	✓	✓	✓
ECG Waveforms – Rate Controllable	92+	92+	92+
ECG – Advanced Functions	✓	✓	✓
Static ECG – 12 Lead	✓	✓	✓
Live/Dynamic ECG – 12 Lead	–	✓	✓
SpO <sub>2</sub> Waveforms	✓	✓	✓
CO <sub>2</sub> Waveforms	✓	✓	✓
Invasive Blood Pressure Waveforms	✓	✓	✓
Critical Care Numerics/Waveforms	✓/–	✓/✓	✓/✓
Preserve CO <sub>2</sub> during CPR	✓	✓	✓
Scenario Creation	✓	✓	✓
Radiology and Patient Images	✓	✓	✓
Laboratory Reports	✓	✓	✓
Training Management System	✓	✓	✓
CPR Feedback Module	–	Optional	✓
Video Debriefing Module	Optional	Optional	✓
Patient Chart	–	✓	✓
Remote Control Module	Optional	Optional	Optional

\* Accessory set: 3 leadwires ECG cable snap, 7 leadwires ECG cable snap, 10 leads ECG trunk cable, SpO<sub>2</sub> sensor (Adult, Ped, Neo), NIBP cuff (Adult, Ped, Neo), Defibrillator/AED pads connector and Defibrillator Pads (Adult and Ped), Disposable adult and Pediatric ECG electrodes, EtCO<sub>2</sub> sensor and temperature probe.

\*\* Available on selected patient monitors and defibrillators.

Note: iPad specifications may vary depending on the distributor and regional availability.

## A few examples of the simulated premium screens from leading manufacturers included:

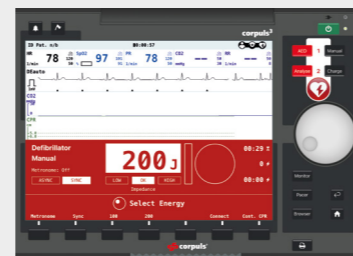

Hamilton T1 Ventilator  
8001137

LIFEPAK 35 Defibrillator  
8001275

Corpus 3T Defibrillator  
8001071

## SIMULATIONS COME TO LIFE WITH THE REALITi360 ECOSYSTEM:

### Now with integrated WiFi and SimConnect included as standard

All REALITi 360 systems are ready to elevate training realism even further. SimConnect acts as the intelligent core of the ecosystem, enabling seamless communication with SimGadgets and supporting real-time feedback on ventilation, oxygenation, and airway dynamics. This built-in technology not only streamlines setup but also allows instructors to run more immersive, responsive, and clinically relevant simulations – preparing learners for the complexities of real patient care.

### REALITi Go

#### Essential for a realistic simulation

REALITi Go is the ideal entry point into medical simulation training. Equipped with six universal simulated screens, it offers a comprehensive yet easy-to-use setup that enables instructors to create highly realistic training scenarios. Designed for both pre-hospital and clinical environments, it provides course participants with a strong foundation in the core skills and workflows essential for emergency and routine care.

1026690

### REALITi Plus

#### Step up your simulation training

REALITi Plus enhances your training capabilities by introducing one premium simulated screen. This advanced interface replicates the look and feel of real patient monitors, defibrillators, and ventilators, allowing learners to gain hands-on experience with the types of equipment they will use in real-world situations. It's the perfect choice for bridging the gap between foundational training and more complex clinical scenarios.

1026692

### REALITi Pro

#### Advanced simulation without limits

REALITi Pro is the most comprehensive solution within the REALITi 360 system. With five premium simulated screens and an all-inclusive suite of hardware and software, it empowers educators to deliver sophisticated, high-fidelity simulation experiences. Features include integrated video debriefing, detailed CPR performance feedback, and powerful tools for scenario evaluation – making it ideal for advanced life support training and multi-disciplinary team exercises.

1026693

### REALITi SimScope Auscultation Training Stethoscope

REALITi SimScope is an electronic training stethoscope module for the REALITi 360 patient monitor simulators, created to practice auscultation with standardized patients and manikins. Add the REALITi SimScope to any of your REALITi systems.
